PROFILE

Frontend developer with a strong interest in building responsive and functional web applications. Currently focused on improving skills through hands-on projects, open source contributions, and continuous learning. Looking for opportunities to contribute to a team and grow as a web developer.

EDUCATION

Govt Boys Degree College, Baramulla

BCA - Computer Applications - **CGPA - 7.3**

2020 – 2024

University Of Kashmir

COURSEWORK / SKILLS

- JavaScript
- API Integration
- Next.js
- Operating System
- OOP Concepts
- React, Redux
- UI/UX Design

PROJECTS

MirrenTX – Rental Platform [↗](#) | [Next.js](#), [Tailwind CSS](#), [Express](#), [Node.js](#), [MongoDB](#) 2024

- Built for a client using Next.js and Tailwind CSS with route handling and responsive layout.
- Enabled user login with Google and email/password using Passport.js.
- Users can rent items like tents, cameras, generators, and event decorations.
- Integrated payment methods for handling equipment rental transactions.
- Included a contact form with Nodemailer and a feedback page to collect user input.
- Delivered the project as freelance work with complete frontend and backend setup.

Personal Portfolio [↗](#) | [React](#), [Node.js](#), and [Tailwind CSS](#). 2024

- Built sections for personal information, project showcases, and a contact form.
- Used EmailJS for handling contact form submissions via email.
- Designed a responsive layout for a consistent experience on all devices.
- Added animations and interactive elements using Framer Motion to enhance user experience.
- Published on Vercel, providing fast load times and dependable uptime.

Fullstack Personal Blog [↗](#) | [React](#) [Vite](#), [Tailwind CSS](#), [Express](#), [Node.js](#), [MongoDB](#) 2025

- Created a blog using React, Vite, and Tailwind CSS with a layout that adjusts to different screen sizes.
- Added user login with Google and email/password using Passport.js.
- Set up role-based article access: admins can post, edit, delete; users can request post-only access.
- Each article supports comments, likes, and heart reactions saved in localStorage.
- Added AI support to help users write articles and ask platform-related questions.
- Used Nodemailer for newsletter and contact handling and built admin tools to manage users, Admins, posts, and comments.
